The CID has engaged in studies to incorporate a “Complete Streets” approach into the design of these corridors to improve accessibility, safety, and connectivity to the surrounding area for all users. Please join us to learn about existing conditions and provide your input on the main issues and concerns that should be addressed in the studies.

Questions? Please contact Alisha Smith, Town Center CID Director of Projects and Planning, at 678.350.5061 ext. 2 or alisha@towncentercid.com.
